

WRITING BY RICUOIO®

The notebooks and copy-books in this collection, bound in recycled leather (Ricuoio), are now among the most iconic of Arbos' articles.

The product is simple in design, clearly and definitively functional, and invitingly tactile: the recycled leather, warm and soft to the touch, is instantly evocative of its natural origin.

The material is attractive because it is pleasantly familiar and reassuring.

These copy-books and notebooks can become inseparable companions in our everyday lives.

This year, two great new additions to our collection are the A6 SMALL COPY-BOOK and the MAXI BOUND NOTEBOOK.
